THE POWER OF HARMONIC
CLOUD AND ON PREMISES
SOURCE TO SCEN SOLUTIONS

Two Focused Business Units

Addressing Gigabit and Streaming Growth

CABLE ACCESS

- Invented and leading virtualized cable access
- Foundational deployments with industry leaders
- Strong cable customer relationships

VIDEO

- Market leader in premium live video
- Leading live OTT streaming transformation
- Strong media customer relationships

GLOBAL SERVICE & SUPPORT

- Service & support plans to fit unique customer needs
- Reputation for world-class service & support
- 365 dedicated global resources
- 5,000+ customers in 110 countries on 6 continents

VOS[®] 360
LIVE STREAMING PLATFORM

VOS[®] 360

XOS

Appliances

Spectrum X

Electra X

ProStream X

Electra X Portfolio

Electra X2

- Encoder
- Appliance
- SDI & IP
- Traditional OTT & Broadcast

Electra X VM

- Encoder
- Software only
- IP
- Datacenter deployments

Electra X2S

- Encoder & Mux
- Appliance
- SDI, ASI & IP
- Small systems, Standalone uplinks

Same Encoding Feature set, Same VQ

ProStream X Key Features

VIRTUALIZED SW

ProStream XVM

SW ON APPLIANCE

ProStream X

SW ON BARE METAL

ProStream X

GATEWAY

- 10 Gbps throughput
- 1G/10G networking
- 1000 sockets/2000 services
- ASI ↔ IP

ADVANCED MUX

- PSI/SI/PSIP re/generation
- PCR generation/restamping
- Remultiplexing
- TS mirroring
- Slate insertion
- DVB-T2 Gateway*
- DVB-T MIP Insertion*

SCRAMBLER

- Integration with CAS vendors
- BISS, DVB CSAv2 / CSAv3
- AES CBC/ECB
- AES Fixed Key
- Trick mode
- Pandora

HIGH-PERFORMANCE STATMUX

- Closed-loop local/remote statmux
- Target bitrate statmux
- DataTrack
- Open-loop w/ OTT content*

SPLICING/SWITCHING

- Seamless Live to Live programs switching
- Blackout switching
- Ad insertion*

ViBE CP9000 – Key features

Platform

- Low depth 1RU server
- Dual AC PSU
- Front panel with LCD
- Up to 2 x Proc. cards

Processing

- Up to 8 x HD or 2 x UHD
- HEVC/AVC 420/422
- MP1 L2, AAC, DD, DD+...
- Low latency
- Multiplexer (SPTS or MPTS)

Interfaces

- Inputs
 - 3G/12G SDI input
 - SMPTE-2022-6 / 2110*
- Outputs
 - TS over IP
 - ZIXI / SRT
 - ASI*

* Built in HW option

RD9000 DECODER - KEY FEATURES

Platform

- Low-depth server
- Dual AC PSU
- 2 models
 - RD9020: UHD up to 80Mbps
 - RD9080: UHD up to 160Mbps
- GbE C&C
- Web configuration

Processing

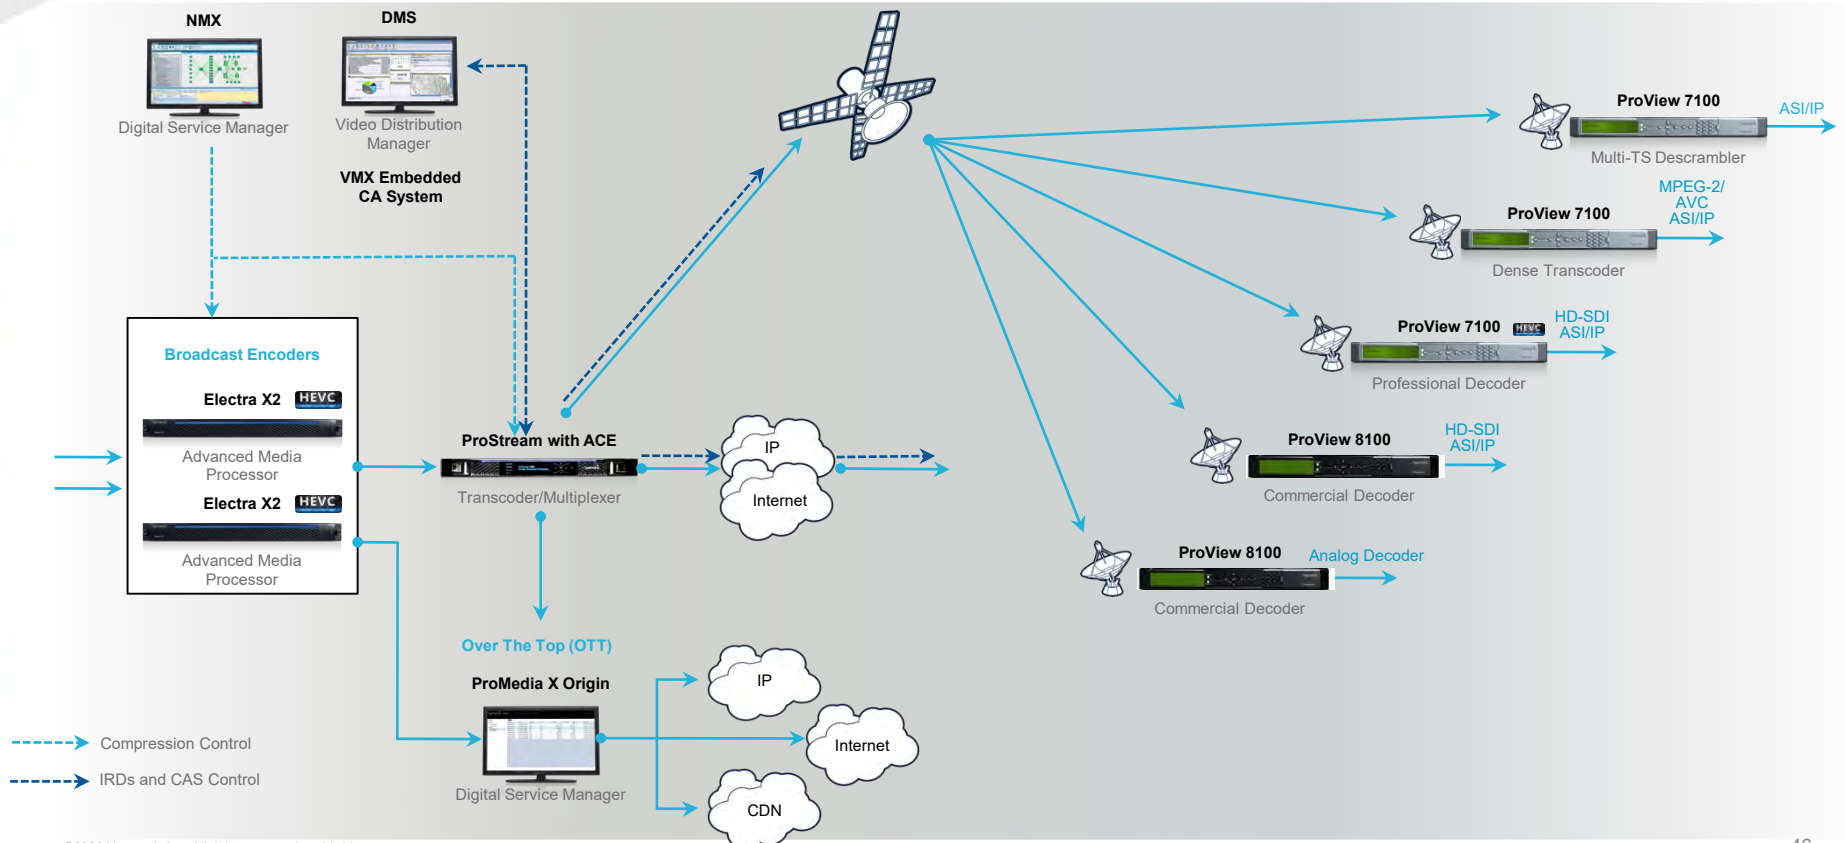

- Up to 4xSD/HD or 1xUHD
- MPEG-2 / H.264 / HEVC
- 4:2:0/4:2:2
- Square Division / 2SI
- Video down conversion
- Up to 8 audio
- MPEG1 LII, AAC, AC3...
- TS player with storage

Interfaces

- Inputs
 - TS over IP/ ZIXI / SRT
 - ASI
 - DVB-S2/S2X
 - Genlock
- Outputs
 - Quad 3G-SDI*
 - 12G-SDI & HDMI*
 - SMPTE-2110*

* Built in HW option

Harmonic Distribution Workflow

MediaGrid – Workflow for Video Storage

MediaGrid

Media Workflow Solution

Optimized file system built for file-based workflows

Leading Performance

High-bandwidth performance suitable for 4K UHD editing

Centralized System Management / Monitoring

Monitor utilization and system health from any browser

Simple, Online Scaling

Easily and linearly scale both bandwidth and capacity*

Shared, Unified Storage

Ethernet connected
Single unified name space

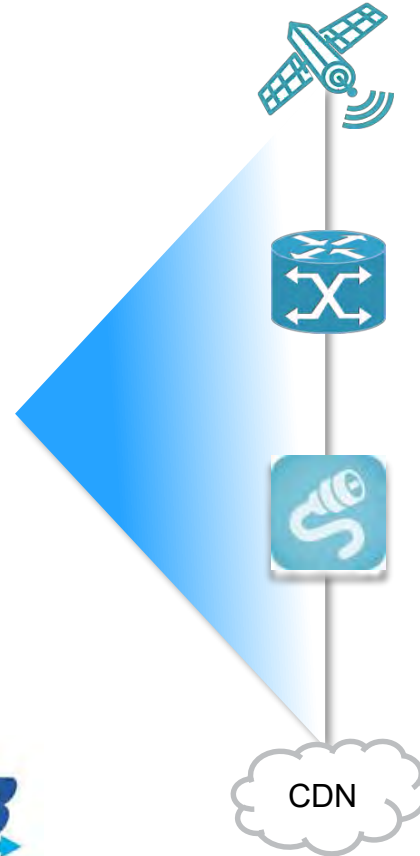

Enterprise-class Reliability

Full Redundancy & High Availability
Clustering & Disaster Recovery

* Currently 4PTB usable

XOS

Advanced Media Processor
Premium VQ
Innovative Features

- Satellite
- Cable
- Terrestrial
- IPTV
- OTT

Electra XT Xstream Transcoder

Digital Turnaround Transcoder   

Broadcast + Multiscreen   

Internal Push Packager   

DRM

Audio Transcoder    

Audio Leveling

Logo/ Text insertion

Market reference for the management of multi-purpose compression systems

One-stop interface

- Network & Services configuration
- Monitoring
- Redundancy
- Multi-application
- Multi-Site
- For all HW/SW deployments

Service-oriented

- Versatile service plan management
- Bulk/Off-line or template-based editing
- Scheduled service plan changes
- Service affecting alarms and service path

Aggregation

- Alarms & events consolidation
- 3rd parties integration
- Audit trail
- Automated system backups
- SNMP forwarding & RESTful API

THE FUTURE IS
SMARTER, FASTER, SIMPLER.

VIDEO STREAMING SOLUTIONS

Video streaming made smarter, faster and simpler, from source to screen.
